Schedule A – Assessable Project Cost Summary
Schedule B – Unit Length Cost Calculation
Schedule C – Assessment Schedule

Appendix

A. Example 10-year Payment Schedule
B. Example 15-year Payment Schedule

1. Introduction and Background

The Village of Somers, WI (Village) is planning to provide water service to properties along 12th Street from 100th Avenue to 7621 12th Street (Post Office).

The Village intends to special assess the adjacent property on each side of the pipe based on the actual cost of the constructed facilities and the length of frontage on each side of the pipe. The current ordinance requires the adjacent property owner to pay the total installed cost of an equivalent 12- inch water main. If the Village chooses to install larger pipes, the Village will pay the oversizing cost, which is limited to the difference in the material price between the installed pipe and the 12-inch equivalent pipe, regardless of depth or field conditions. The Village standard water main is PVC – DR 18. Table 1 contains current material pricing information. The water main assessment may have a contribution from impacted tax incremental districts and may see relief for any pipe material cost larger than 12-inch, as is past practice in the Village.

Table 1 – Material Cost Information – Water Main

Material Prices – From Core & Main Supplier (1/30/26)

	12-Inch	16-Inch
C900 PVC Pipe – DR 18, Per Ft.	\$35.00	\$46.00
Valve & Box, Each (12" Gate, 16" Butterfly)	\$4,975	\$6,380
Water Main Assessment Reduction to 12-Inch	\$0.00	\$11.00
Water Main HDD Assessment Reduction to 12-Inch	\$0.00	\$37.00
Mainline Valve Assessment Reduction to 12-Inch	\$0.00	\$1,405

This report is based on bid prices. Final Assessments will be based on a separate report that will include installed project cost information.

The appendix contains payment schedules for 10-year and 15-year alternatives that are based on a 4 ½-percent interest rate and an installment notice published on March 6, 2026. The Village will make decisions at the time of award on the length of term and interest rate.

2. Statement of Benefit to Properties

The proposed water main, including valves and hydrants, will provide domestic water service and fire protection to areas currently without water service. Figures 1 and 2 show the location of the proposed water main relative to the parcels served. The parcels served will have access to the installed main.

Figure 1 – Water Service Route (100th Avenue to Shoreland High School)

Figure 2 – Water Service Route (Shoreland High School to Post Office)

3. Special Assessment Cost

The property owners will be assessed the total project cost associated with a 12-inch water main. The cost of the water transfer station will be shared by all water utility customers and funded by the Utility through user rates unless the Utility is able to obtain a contribution from a developer. Corner lots will pay based on the actual lot dimension parallel to the water main except for the following.

- 9927 12th Street (82-4-222-172-0190): This property will not be assessed as part of this project; it was previously assessed when water main was installed on 100th Avenue.
- 9001 12th Street (82-4-222-171-0025): This property will be assessed based on the 12th Street frontage; it has frontage on 12th Street and 88th Avenue but is not considered a corner lot due to another property at the corner.
- Village Property on North side of 12th Street across from Post Office (82-4-222-094-0201): Based on length of property adjacent to new water main.

4. Unit Cost Calculation and Assessment Schedules

Schedule A is a summary of the total project and assessable portion of the project cost based on January 29, 2026 bid prices from the low bidder, actual engineering costs, and an allowance for construction contingency.

Schedule B is pipe unit length cost calculation, Schedule C is the assessment schedule with the listing of properties and estimated total assessment. The frontage listed in Schedule C is from the Kenosha County Geographical Information System as listed on the parcel or measured.

See the appendix for 10-year and 15-year payment schedules based on the assessment from Schedule C and a 4 ½ -percent interest rate.

SCHEDULE A

Table 2 - Project Cost

No.	Item	Approximate Quantity	Unit Price	Total
<u>100TH AVENUE TO SHORELAND HS</u>				
1	Mobilization	1 LS	\$57,000.00	\$57,000.00
2	Clearing And Grubbing	1 LS	\$9,000.00	\$9,000.00
3	Construction Layout & Staking	1 LS	\$11,000.00	\$11,000.00
